

GRAPHISOFT
Archicad[®]

**CREATE GREAT
ARCHITECTURE!**

Work smarter, not harder! Archicad's powerful suite of built-in tools and refined interface make it the most intuitive, user-friendly BIM software on the market for teams and projects of any size. Featuring out-of-the-box design documentation, one-click sharing, photo-realistic rendering and best-in-class analysis, Archicad lets you focus on what you do best: design great buildings.

A NEMETSCHKE COMPANY

DESIGN

Unleash your creativity with the leading building information modeling software developed by architects just like you. Algorithmic design tools and large model support let you do what you do best: design great architecture.

THE SKY'S THE LIMIT!

ONE-CLICK DOCUMENTATION!

DOCUMENT

Publish and share documentation sets with just one click! Complete 'out-of-the-box' documentation sets, combined with a powerful publishing workflow that complies with local BIM requirements, means you can focus on your designs, not the paperwork.

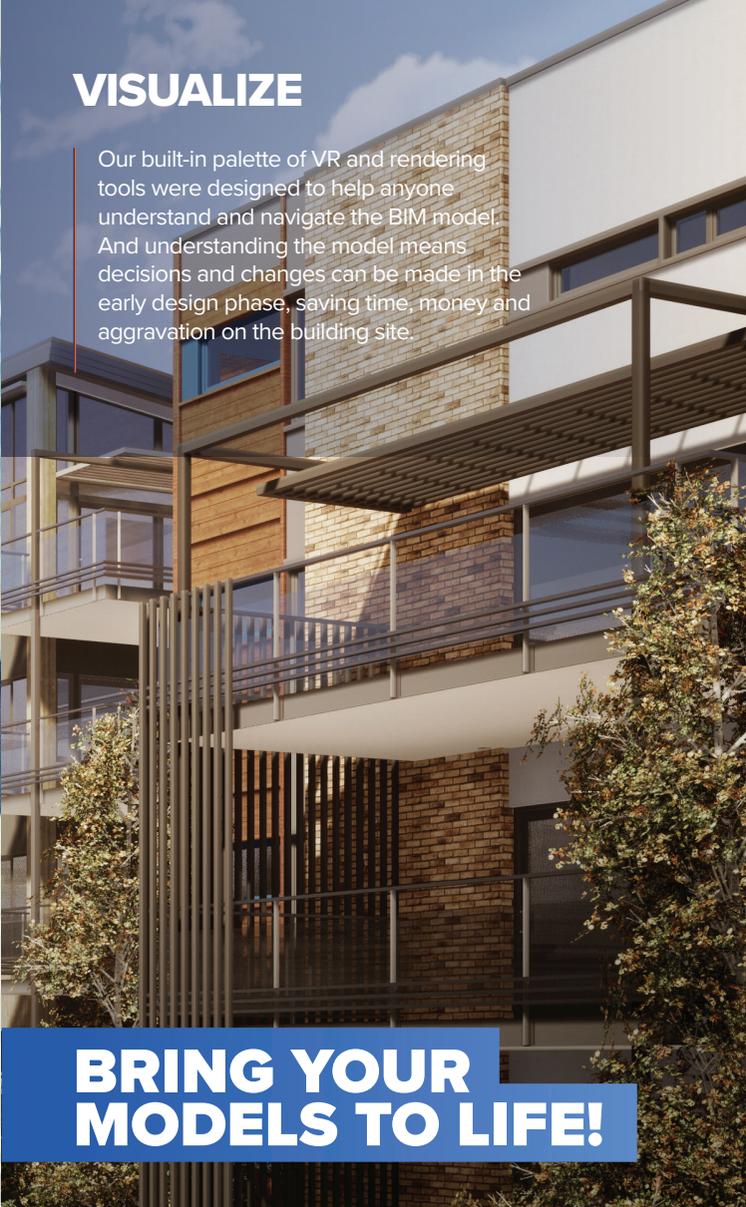

REAL-TIME TEAMWORK!

COLLABORATE

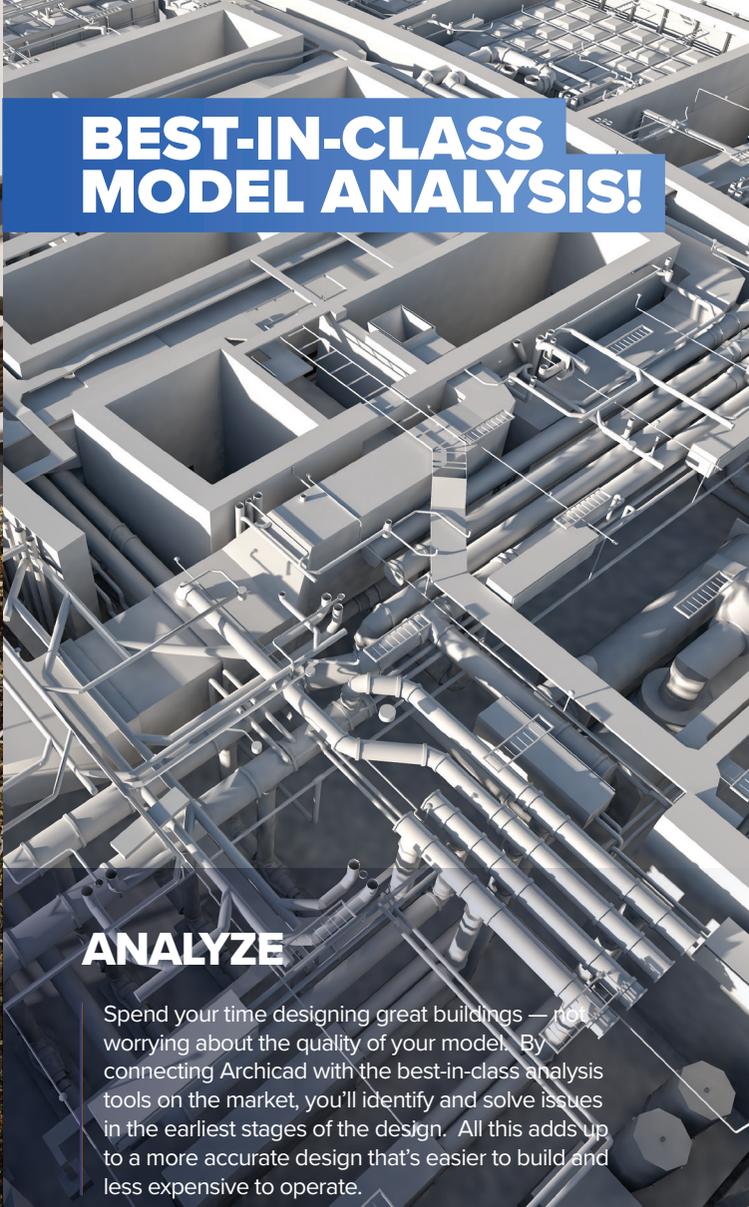

Work with teams around the corner or around the world on projects of any size or complexity. No more waiting or sync queues thanks to real-time instant messaging. Flexible import/export options mean clash detection and resolution are fast and easy regardless of the team members' individual software choices.

VISUALIZE

Our built-in palette of VR and rendering tools were designed to help anyone understand and navigate the BIM model. And understanding the model means decisions and changes can be made in the early design phase, saving time, money and aggravation on the building site.

BRING YOUR MODELS TO LIFE!

BEST-IN-CLASS MODEL ANALYSIS!

ANALYZE

Spend your time designing great buildings — not worrying about the quality of your model. By connecting Archicad with the best-in-class analysis tools on the market, you'll identify and solve issues in the earliest stages of the design. All this adds up to a more accurate design that's easier to build and less expensive to operate.

BUILDING TOGETHER

“We believe great design comes from a collaborative environment.”

Anthony Laney, Laney LA, USA
